

1

Being single is beautiful and good.

-Divorce is such a problem in society. Divorcing and then remarrying brings us into adultery.

-So the disciples thought that maybe no one should marry. But Jesus told them not marrying (equivalent to being a eunuch in his description) is not for everybody but many do choose to remain single for the sake of the Kingdom.

2

We must trust
God's wisdom
and timing.

-Enjoy the process of being single.
Give him your best in that season.

-You may not be ready for
marriage. God needs to heal you
and prepare you.

-The devil tempts us with that
which God has already given to us
or promised to us.

3

We must all live
as singles
focused on God.

-No matter what status (single, married,
widowed), you need to pursue God.

-We all have the same needs (love,
acceptance, peace, joy).

-No one enters the kingdom because of
someone else. We must each choose to
go after God.

-
Time is short. But God has made
everything beautiful in its own time. He
wants you to be free, to be full
(satisfied), and to have fun.
